Rosco was established in 1907. For nearly a century, our goals have remained the same: We are committed to producing the highest quality automotive products and providing the level of service our customers have grown to expect.

Today, we supply our products to every school bus manufacturer in North America. Our products are designed and built in the USA. Our staff has grown to over one hundred people in facilities totaling over eighty thousand square feet.

As we look forward to the twenty-first century, we have set our goals even higher. Our focus on Total Quality Management and continuous improvement will keep our product quality at levels our customers demand.

We will strive to improve our customer service through on-line and electronic resources. We will continue to develop newer and better products to serve the ever-changing needs of the marketplace of tomorrow.
